

2017-02-01 Docker Project Sprint 1 Retrospective

Date 01 Feb 2017

Participants [Leigh Griffin](#) [Stephen Coady](#)

Retrospective

What did we do well?

- Already had prototype in place to accelerate development
- 3rd party module knowledge accelerated development
- Guidance from Red Hat really helped focus the sprint
- Scope on tickets well understood from Red Hats perspective

What should we have done better?

- Story points were inflated because domain knowledge was higher than anticipated
- Testing strategy needs to be revised, very time consuming

Actions

- [Stephen Coady](#) review backlog for story point accuracy based off of current domain knowledge
- [Stephen Coady](#) add a ticket to review / spike testing strategies, feel free to consult [David Martin](#) and [Leigh Griffin](#) on specifics
- [Stephen Coady](#) add a ticket for UI frameworks investigations and spikes, end result should be an Epic that we can triage and prioritise
